

SCIENTISTS AND RELATION TO WAR

John Randall Dunn Defends Attitude of Church in the Present Crisis.

Under auspices of the Second Church of Christ, Scientist, in this city, there was delivered at the courthouse auditorium last evening a lecture on Christian Science, by John Randall Dunn, C. S., member of the board of lectureship of the mother church, the First Church of Christ, Scientist, in Boston, Mass. The speaker, who was introduced by Mr. O. P. Darwin, said in part as follows:

"The widespread interest in the subject of Christian Science, in this and other lands, is traceable directly to the fact that enslaved mortals are finding in its spiritual teaching that liberator graphically pictured by Isaiah as sent to preach good tidings unto the meek; to bind up the broken-hearted; to proclaim liberty to the captives; and the opening of the prison to them that are bound." The attempt of some misinformed critics to prove that Christian Science is not this liberator, that the sick are not healed, the sinning reformed, nor the sorrowing comforted through its ministrations, are of course of little moment in the presence of an ever-increasing host of witnesses testifying to the fact that whereas they were bound physically, mentally, or morally, now they are experiencing through the teachings of Christian Science a greater measure of health, freedom, and happiness than they have ever known.

This Tragic Moment in History.

"We are without doubt living in one of the most tragic moments in history. On all sides are evidences of the most terrible upheaval the world has ever witnessed. Nation has risen against nation, wars and rumors of wars abound, desolation and disturbances of nature seem to prevail, and want, woe, and discord stalk abroad in the earth. What does it mean? How are we to stand? Christian Science gives the only rational explanation of this mighty world-wide fermentation. It tells us not to be dismayed, but to realize that as the mud in a river's bed must be stirred and brought to the surface in order to purify the stream, just so must the latent errors of the earth, national as well as individual, be brought to the surface and carried off, in order that the kingdoms of this world may become the kingdom of our Lord, and of His Christ. As Jesus says in the twenty-first chapter of Luke, 'When these things begin to come to pass, then look up, and lift up your heads: for your redemption draweth nigh.' A Christian Scientist cannot fail to realize the signs of the times and realize with courage and without dismay that this mighty international upheaval means the blasting away of the rocks and bumps of tyranny and oppression and the preparing of the soil of the human consciousness for the seed of truth, the seed of scientific Christianity. Thus to say that the world is being made safe for democracy, means that the world is being prepared for scientific, liberating Christianity.

Patriotism and Democratic Citizenship.

"Mrs. Eddy, the discoverer and founder of Christian Science, has said (the First Church of Christ, Scientist, and miscellany) that Christian Science 'stands for the inalienable, universal rights of men. Essentially democratic, its government is administered by the common consent of the governed, wherein and whereby man governed by his creator is self-governed. She has also stated as an article of her political faith that she believes in supporting a righteous government. And in yet another place she writes, 'If our nation's rights or honor were seized, every citizen would be a soldier and woman would be armed with power gift for the hour.' Thus it will be found that the great majority of alert students of Christian Science are endeavoring to be good citizens, and loyal upholders of every good and righteous cause. If a student of Christian Science believes that he is not a loyal supporter of this great government, it is as without doubt because he has not as yet realized that if he is loyal to the ideals of Christian Science he cannot help being loyal to the ideals of America, for try as he may, he cannot divorce the two. The very cornerstones of this nation may be said to be a statement of scientific Christianity; in fact, the coming of Christian Science with its message of complete liberation was foreshadowed in the declaration of independence, when it was written: 'We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness.'

"Certainly it must be recognized by every thinking person that the signing of a treaty of peace, favorable to human interests as it may be, will not alone usher in the millennium. To be sure, the yielding of autonomy to democracy, the ordaining of humanly good governments, and the establishment of equal rights and privileges among men are absolutely necessary steps toward the ultimate liberation of the race. But the great battle of Armageddon is not ended, for this battle is the conflict between the flesh and spirit, between truth and error; the struggle whereby mortals finally shall be freed from the bondage of material sense, from sickness, hate, animosity, limitation, imperfection, old age, death. This is the conflict which Paul describes as warfare, not with flesh and blood, but with 'principles'—the powers of the darkness of this world, the spiritual wickedness in high places. And for this battle he bids us put on the whole armor of God that we may be able to withstand in the evil day. So the Christian Science warrior has enlisted, as his leader has written, 'to lessen evil, disease, and death.'"

Many Military Dependents Receive No Allotments

Government Has Big Problem but Many Failures to Deliver Checks to Wives and Mothers Due to Soldiers' Errors—Should Notify News

Dependents of any soldier or sailor now in the American service who are entitled to relief from the government may send a statement of the enlisted man's name, service, rank and present location, or so much of this information as they may possess, to The Chattanooga News' military bureau. Efforts will then be made through Tennessee representatives at Washington to have these claims laid before the proper authorities.

It is to be expected that there should be delays and errors in perfecting machinery by which the dependents of all Uncle Sam's fighting men on land and sea should receive the protection to which they are entitled by law.

In many instances the men themselves have not made nor authorized the allotments for

wife, child, mother, sister or other dependent relative that come within the provision of the law. In other cases the addresses given may be wrong. The result has been much inconvenience and hardship imposed upon wives and relatives.

The News is acting on the belief that the government, which has gone to great expense, pains and labor to provide means of support for dependents of the men who have enlisted or who have been drafted into its service, will welcome any assistance in straightening out the unavoidable kinks in the channels of distribution.

To ascertain the facts and apply practical methods for the correction of errors certainly is more just to the government and all concerned than any kind or form of criticism would be at this time.

CLASSIFICATION OF COUNTY DRAFT MEN NORTH RIVER

County exemption board No. 2, embracing all of the territory north of the Tennessee river, and of which Dr. W. M. Bogart is chairman, has classified a large number of registrants who have returned their questionnaires since Jan. 3.

W. J. WARD CASHIER OF BANK OF COMMERCE

The board of directors of the Bank of Commerce held a meeting Wednesday afternoon, in which W. J. Ward was elected cashier to succeed L. G. Browne, who had resigned. Gordon L. Nichols was re-elected assistant cashier. John Hunnicutt was added to the official force as auditor, and has assumed his duties.

IN FIVE MINUTES NO SICK STOMACH INDIGESTION, GAS

"Pape's Diapain" is the quickest and surest Stomach relief.

You don't know what upset your stomach—what portion of the food did you eat? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapain to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapain occasionally keeps the stomach sweetened, and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal limit without rebellion; if your food is 3 damage instead of a help, remember the quickest, surest, most harmless antidote is Pape's Diapain which costs a few cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily that it is really astonishing. Your stomach will digest your meals and you keep acids neutralized.—(Adv.)

SOCIAL IDEALS AS TAUGHT IN HOME

Dr. Winfield Scott Hall Scheduled for Two Lectures This Evening.

Parents of adolescent boys should not fail to have them hear Dr. Winfield Scott Hall's talk to boys this evening at the Y. M. C. A. building on Georgia avenue. Dr. Hall addresses the junior "Y's" at 7 o'clock on subjects of special interest and benefit to them before his regular evening lecture at the courthouse auditorium at 8:15, when he will speak on "Social Ideals as Taught in the Home." This will be for the general public, and Dr. E. B. Wise, of this city, will preside, and introduce the speaker. Medical men and parents are especially invited. Two special talks were given by Dr. Hall this afternoon on "The Mother and Child," the first at 3 o'clock to women, and at 4 o'clock to high school girls, mothers and teachers, at the courthouse auditorium.

Mrs. Mary Giles Howard, president of woman's council, and Mrs. J. O. Devlin, president of the parent-teachers' city federation, presided over the afternoon sessions.

This series of lectures is given under the auspices of the Child Conservation League of America, of which Dr. Hall is president, and which is organizing a local circle here. They will afford a rare opportunity for the people of Chattanooga to hear a noted speaker and writer, whose lectures command a high price in normal times. But since the middle of September, Dr. Hall, who is a member of the medical faculty of Northwestern university, Chicago, has devoted his services to speaking to the men in the various cantonnments, under the assignment of the medical department of the war relief council of the Y. M. C. A. His work has been confined to the Atlantic seaboard, and southwestern divisions, and his lectures have all been made official by the commanding officer. Dr. Hall will leave Camp Oglethorpe, where he has been for the past ten days, to go to Camp Gordon, Atlanta, Ga., Thursday. He has remained here a day longer than scheduled for the purpose of giving the lectures in this city this afternoon and evening.

TROOPS HAVE PNEUMONIA CAN BE PREVENTED

The following statement explains itself: To Whom It May Concern: "Have used Gowan's Preparation for years in my family, in five cases of pneumonia. I can cheerfully and confidently recommend it. I believe it to be the greatest remedy of the age. Yours truly, (Signed) H. J. Overman, Secretary of United States Senate, Washington, D. C." Rub Gowan's freely on your throat and chest for colds, croup and pneumonia—for sale at druggists 25c, 50c and \$1.00 sizes. The Gowan Medical Co., Concord, N. C.—(Adv.)
